

## SUMMER VIBES

### *1<sup>er</sup> couplet :*

Do you recall  
This summer night  
I was attracted by your sight  
I felt in you a burning fire  
An ephemeral desire  
The fresh air blew in your hair  
And we didn't care

### *Refrain :*

I wanna know, if you'll come along,  
Or if I'm wrong cause it's been too long  
Can't you see, the sun, the sea  
And all these places where you've been

### *2<sup>ème</sup> couplet :*

These unknown faces in the night, are so far from me,  
Those summer vibes aboard the flights, bring melancholy  
These common days, led by feelings  
Those promises we made with sweet dreams  
These endless waves cuddling the sand  
The wind spreading scents

### *Refrain :*

I wanna know, if you'll come along,  
Or if I'm wrong cause it's been too long  
Can't you see, the sun, the sea  
And all these places where you've been

### *Contre-chant :*

I want you to come back  
For me you are the one  
At any time I'm sad  
Cause I need you so bad
