

WALKING THROUGH THE NIGHT

Thème A :

Walkin through the night
Catching all the Lights
The feeling of Delight
Take a deep breath
Listen to SOS
Feel it inside your chest
Tonight is a quest
You'll have time to rest
This night will be great

Drop :

Get to the dancefloor
And feel the vibes around
Wait for your moment
When people will surround

Pont :

I'm lulled by the music I'm getting tired
My eyes are slowly starting to squint
My energy's consumed I need a booster.
Tonight, I'm gonna pull myself together

Thème B :

Walkin through the night
Catching all the nights
The feeling of delight
Dancing til it hurts
Listen to SOS
Feel it inside your chest
You'll have time to rest
This night will be great

Contre-chant fin :

Stand far from stress
Get off your phone
Don't stay alone
But don't do mess
You will progress
You gotta try to try to try till the end of the flight
I'm Feelin' all right
Till the end of the night
When the place the place the place is so tight
I'm feeling all right
Through the space and the stars
Beyond the stairs of paradise
